

Press release

Paris, Thursday 14 March 2023

With more than 20% growth, MONEXT passed the 6 billion payment transactions mark in 2022.

Monext confirmed its leading position on the French payments market:

- **4.2 billion transactions processed for e-commerce and in-store payments**, up 21% year-on-year.

With around 1 billion e-commerce transactions (+16%), MONEXT's market share is more than 40%¹ in France. This growth is supported by the extension of **MONEXT's Full Service**² offering and the acceleration of **m-commerce** (more than 50% of our e-commerce transactions).

- Around **2 billion transactions** processed for bank and fintech clients, mainly **related to card use**, representing 20% growth over one year.

New uses, whether contactless, virtual cards or mobile payments, are contributing to this growth.

Against this backdrop of transaction volume growth, MONEXT recorded turnover of more than €97 million (up 5% compared to 2021).

*"In 2022, **marketplaces**, driven by an upsurge in second-hand sales, **transportation** and **culture** were particularly dynamic. On the banking and fintech market, we had the privilege of **supporting certain clients in Europe**, such as **Nickel** in Spain, Belgium and Portugal.*

*In 2023, we are furthering our development on our various markets, particularly by stepping up the roll-out of **our Full Service offer** for merchant clients, who are increasingly open to expanding their conventional banking practices to include innovative payment services that are strong value drivers", comments Guillaume Prin, Chairman of MONEXT's Executive Board.*

Against this backdrop of increased development and of adapting its practices to market requirements, MONEXT **recruited more than 50 new employees** in 2022 and will continue this trend in 2023.

Last year, construction also began on a **6,000 sq.m. campus** in **Aix en Provence**. Designed to be a genuine living space, all the teams will move there in 2024.

“We are investing to create a campus that will meet the need for new hybrid working methods and our employees’ expectations. It will also be a catalyst for even more creativity and energy within our teams”, concludes Guillaume Prin.

Key figures for 2022

- **+6 billion** transactions (+20%).
- **40%** market share for on-line business (approx. 1 billion transactions).
- **+20 million** cards activated.
- **€97.2 million** in turnover.
