

### **3DS V2: Monext triple certified**

While the new Payment Services Directive (PSD 2) will be effective from September 14, Monext announces that it is ready and **certified CB, VISA and Mastercard**, in accordance with the expectations of the European Banking Authority, expressed through the Technical and Regulatory Standards.

Monext supports its traders in a smooth and transparent implementation: transaction security, by triggering strong identification as soon as a risk is identified, and optimisation of conversion rates through an optimal user experience.

**About MONEXT**

MONEXT is a **major player in the payment market in France and Europe.**

We support more than 150 financial institutions and 800 merchants with innovative services covering the entire electronic payment chain in line with changing regulatory requirements. We develop solutions with increasing levels of security to anticipate all new uses. This is our contribution to our clients' development: omnichannel payment, financial flow optimisation, loans, card processing, combatting fraud, etc., anywhere and on all devices.
